

AP Spanish Literature & Culture Summer Assignment 2020

The AP Spanish Literature & Culture is a very rigorous and fun course. After finishing this course, all students will have drastically improved their language skills and knowledge of the literature of the Hispanic world. However, what is done in the classroom will not be enough to guarantee the best possible results. It is, therefore, of insurmountable importance that all students engage themselves in using the language in the community and/or using all other resources currently available to them through technology. The summer work for next school year will be practical and useful in order to help you fine-tune your skills as best as possible. During the summer, you are going to do the following:

- Study and learn the literary terminology by using the following Websites:
