Switching Between Remote & In-Person Learning

In the summer, based on the survey information you provided, we carefully arranged all classrooms and cohorts for the learning styles you chose. If you wish to change the way your child is learning, you will need to follow the procedures below:

If your child is currently a remote learner and you would like to switch him/her to in-person learning (hybrid), please follow the procedure outlined below:

1. Call D House (Ursula Fusco x13251) and state your child's full name and grade.
2. Ask for your child to be switched from remote to in-person (hybrid) learning.
3. Notify the transportation department if you need to request a bus stop and route. Transportation will provide this information.
4. Visit the NPS Transportation website for more information: <https://www.norwalkps.org/district/transportation>
5. The change will be made within two (2) weeks. Ms. Fusco will communicate the date to start in-person/hybrid learning.
6. Your child must still participate in remote learning during the waiting period.

If your child is currently an in-person (hybrid) learner and you would like to switch him/her to remote learning, please follow the procedure outlined below:

1. Call D House (Ursula Fusco x13251) and state your child's full name and grade.
2. Ask for your child to be switched from in-person (hybrid) to remote learning.
3. Allow up to 48 hours for the teacher to provide remote learning access information.
4. Your child can still participate in-person (hybrid) learning during the waiting period.
